Access Permits, Plat Approval, Oversize/Overweight Truck Movement Permits

Driveway and Public road access onto county highways requires an access permit issued by the County Engineer. Subdivision plat approval regarding the roadway is also required. Truck Movement Permits for County Highways are issued at the discretion of the County Engineer and requests for such Permits are reviewed with respect to the load to be moved, need, route, current pavement conditions, and possible damage to highway facilities. Permits are issued on an individual basis and do not constitute a precedent for the issuance of similar Permits.
