

GREEN GUIDE

WWW.MCHENRY.EDU/GREEN

WELCOME TO THE 16TH EDITION OF THE MCHENRY COUNTY GREEN GUIDE!

I frequently hear from people that they don't think they are doing enough or what they are doing does not make a difference. I encourage them (and you) to visit this website: www.un.org/sustainabledevelopment and look at the seventeen United Nations Sustainable Development Goals (SDGs). These goals are the result of many years of tireless work beginning 1992 with the Earth Summit in Brazil. Fast forward to the United Nations Sustainable Summit in 2015 when the 2030 Agenda for Sustainable Development was adopted which includes the 17 sustainable development goals. You will be surprised at how many of your everyday choices are supporting the goals of the SDGs. Even in its own small way, the Green Guide is helping to address at least three of the goals: 3. Good Health& Well Being; 6. Clean Water & Sanitation; and, 11. Sustainable Cities and Communities.

Thank you for all you do!

Kim

Kim Hankins, Director
Sustainability Center
McHenry County College
khankins@mchenry.edu
sustainability@mchenry.edu

Throughout the year, MCC is honored with gifts of support for the work we do on the Green Guide and other sustainability initiatives. The Sustainability Center staff acknowledges and deeply appreciates every gift, volunteer hour(s) and words of encouragement. Thank you very much!

The Sustainability Center is grateful to Alissa Kushch, MCC Sustainability Center Student Assistant, for her work helping to update the information in the 2022 Green Guide. Thanks also to Jessica Reimer, MCC Graphic Designer, Marketing and Public Relations, for designing a readable, usable, and beautiful 2022 Green Guide.

How to Recycle your Aerosol and Propane Products

The majority of the 4B+ aerosol cans and 40M+ propane tanks manufactured annually in the USA, the majority end up incinerated or in landfill. But, whether you're a resident or business, you can now recycle these items in a responsible way through safe disassembly, emptying residual contents, and routing all components to the proper channels for recycling.

How it's done

Thanks to partnerships with US-based closed-loop processors and experts in the responsible disposal of specialized materials, Flat Can Recycling collects, disassembles and diverts each component of aerosol and propane products. Plastic caps and tips of aerosol products are processed into flakes and pellets for reuse (such as plastic injection molding), residual material is captured and used for fuel or sold as a commodity to manufacturers, and metal cans/tanks are processed and refined for a variety of uses.

Flat Can Recycling

The Illinois-based company offers multiple drop-off points in Chicagoland where residents may recycle their empty aerosol products and propane for a nominal fee (no need to call ahead). So far, they've diverted 125,469 pounds of aerosol products, 16,175 pounds of plastic waste, 4,413 gallons of residual paint, and 191 pounds of propane tanks from landfill.

Learn more at www.flatcanrecycling.com and follow on Instagram at @flatcanrecycling.

Recycling PPE with Zero Waste Box™ by TerraCycle®

The increased usage of single-use personal protective equipment (PPE) since the beginning of the pandemic adds up to a lot of extra waste. According to ACS Publications, we use an estimated 129 billion face masks and 65 billion gloves each month worldwide. Though our usage has increased, it doesn't have to be an environmental burden. That's where Zero Waste Boxes from TerraCycle® come in. PPE is not accepted by traditional curbside recycling programs but can be recycled through a Zero Waste Box.

"The problem is most objects; packages and products that we interact with are not recyclable, not because they can't be, but because they cost more to collect and process than the results are worth," said Tom Szaky, CEO of TerraCycle. The cost of a Zero Waste Box reflects the production of the box; transportation to you and then back to our recycling facilities; and the actual cost of sorting, cleaning, processing, and recycling the contents into raw formats.

What happens to the PPE once you've filled and sent back your Zero Waste Box?

- **Check-in:** When the shipment arrives at a dedicated TerraCycle Material Recovery Facility (MRF), always in the country of collection, it is checked in and weighed. All Zero Waste Boxes are quarantined on arrival for a minimum of 72 hours to protect team members handling the waste.
- **Sort:** TerraCycle sorts the waste into categories based on material composition (rubbers, metals, non-woven plastic, elastane, etc.) by utilizing an array of sorting technologies.
- **Recycle:**
 - a. The metals are manually removed and sent locally for smelting into new bar stock and metal sheeting.
 - b. The polypropylene-dominant mixture from the face mask is densified into a crumb-like raw material that's used in plastic lumber and composite decking applications
 - c. The elastane or rubber band portion is ground into a fine mesh regrind and mixed with recycled plastics as an additive to provide flexibility and malleability to products.
 - d. Gloves are processed into a rubberized powder which is used for flooring tiles, playground surface covers, and even athletic fields.
- **Transform:** The resulting recycled material is used by third parties to manufacture new products, including outdoor furniture, plastic shipping pallets, outdoor decking, watering cans, storage containers, bins, tubes for construction applications, etc. You may have even had lunch at a picnic table or played on a playground made from recycled masks!

Zero Waste Box™ is an easy, convenient, and all-inclusive option for households, schools, businesses, facilities, and events to recycle hard-to-recycle trash. Watch a video of how a Zero Waste Box is processed

APPLIANCES

Large appliances are banned from landfills in Illinois. Many stores will pick up your old appliance for recycling when they deliver the new one. For refrigerators, freezers and other freon-bearing appliances, proof of proper Freon removal may be required prior to recycling. Fees may apply—check with waste hauler.

The **Illinois Recycling Foundation** dates back to 1980 when it was formed to give government, non-profits and businesses involved in recycling a common area to learn from one another and build a thriving economy with waste reduction, reuse, recycling and composting at its core. Individual annual membership includes access to monthly webinars and discounted rates to in-person tours and the annual conference. Monthly newsletters highlight business, government, educational institutions and non-profit members; along with updates on Illinois legislative actions that impact recycling and composting and industry news. All members of IRF are members of the National Recycling Coalition. www.illinoisrecycles.org

Cups, straws, lids, and utensils— not recyclable

**None of these are recyclable. Try to avoid
them wherever possible!**

(Thanks to Kane County Green Guide for this information)

BULBS

Did you know it is against the law for any Illinois business to dispose of their lamps and bulbs in municipal landfills? Many businesses have fees associated with recycling bulbs. Please call or check websites for the most accurate information pricing. (FL: fluorescent bulb, CFL)

Batteries Plus Bulbs

5260 Northwest Hwy., Crystal Lake

Medical and dental waste accepted.

Naperville Public Works

156 Fort Hill Dr., Naperville
(630) 420-6095
www.naperville.il.us/hhw
Open Saturday and Sunday 9 a.m.–2 p.m.
No fee, no appointment needed.

Four Rivers Sanitation Authority

3333 Kishwaukee St., Rockford
City of Rockford: (779) 348-7300
Managed by Keep Northern IL Beautiful,
www.KNIB.com
(click on recycling centers, then hazardous waste)
KNIB: (815) 637-1343
Call for fees and accepted items.
Saturday (Excluding weekends closest to holidays):
8 a.m.–4 p.m., Sunday: Noon–4 p.m.

SWALCO—Solid Waste Agency of Lake County

1311 N. Estes St., Gurnee
(847) 336-9340
www.swalco.org | info@swalco.org
Twice a month drop off at SWALCO Gurnee Facility,
appointments required. Check website for mobile
collection events (delays due to COVID). Two per
month April–October.

Accepted HHW Items:

- Acids
- Adhesives
- Aerosol products
- Antifreeze
- Asbestos containing products
- Automotive fluids (brake, transmission fluids)
- Batteries: lithium, nickel-cadmium, metal hydride, no alkaline
- CFLs, fluorescent tubes
- Cleaning solvents, degreasers
- Fertilizers
- Flammable liquids
- Fluorescent tubes and ballasts
- Fungicides, herbicides, insecticides, pesticides
- Gasoline—in properly marked containers
- Household cleaners
- Insulin disposal (no needles or sharps)
- Medication: OTC and prescription
- Mercury, thermometers (mercury), thermostats (mercury)
- Ni-Cad batteries (nickel cadmium, rechargeable)
- Paint (oil-based only, nolatex paint)
- Paint strippers/paint thinner
- Personal care products: cosmetics, nail polish, etc.)
- Pool chemicals
- Oil, automotive
- Sealants, solvents
- Varnish, wood stain, similar products

Unacceptable Items:

- Business, commercial or institutional wastes
- Agricultural chemicals
- Alkaline batteries (see Batteries section)
- DEA controlled substances—visit DEA website or call (312) 353-7875
- Explosives and ammunition
- Fire extinguishers
- Fireworks
- Household electronics (see Electronics section)
- Latex paint (See Paint section in Green Guide)
- Lead acid batteries (see Batteries section)
- Propane tanks (see page 18)
- Medical wastes, sharps/needles
- Smoke and carbon monoxide detectors

HOUSEHOLD HAZARDOUS WASTE ONE DAY COLLECTION

**Pre-Registration is Required.
Visit mcdh.info to Schedule.**

Saturday June 25, 2022 8am – 3pm

Prairie Ridge High School

Pre-Registration is Open to all Illinois Residents.
This Collection Event is for Residential Waste Only.

6000 Dvorak Dr, Crystal Lake IL 60012 Enter School From Walkup Rd

Items That Will Be Accepted

Acids
Adhesives
Aerosol Products
Antifreeze
Auto Fluids
Ballasts (PCB)
Black top Sealer— oil based
Cleaning Products
Cooking oil

Corrosives
Drain Cleaners
Fluorescent bulbs (tubes and CFL's)
Gasoline and oil/gas mixtures
Herbicides,
Hobby and Photo Chemicals
insecticides
Lawn Chemicals
Mercury-containing devices
Mercury

Oil-based Paints, Stains and Varnishes
(NO LATEX PAINT)
Paint Thinners
Pesticides
Poisons
Pool Chemicals
Resins, Glues
Solvents
Used Motor Oil

Items That Will NOT Be Accepted— DO NOT BRING

NO LATEX PAINT— Latex Paint is not hazardous and can be safely dried and discarded in the garbage. See the McHenry County Green Guide for additional options for recycling latex paint.

Acetylene Cylinders
Agricultural Waste
Ammunition, explosives, or fireworks
Biological and medical waste
Business, Institutional or commercial sector wastes
Controlled Substances-Pharmaceuticals
Farm machinery oil

Fire Extinguishers
Lead-acid (auto) Batteries
MAPP Gases
Needles/Syringes
Oxygen Tanks
Propane Tanks
Radioactive Material
Smoke Detectors

Event is Sponsored by the Illinois Environmental Protection Agency and the McHenry County Department of Health.

The following locations accept paint for recycling. Spray paint, stains, and other paint related products (i.e. thinners) will not be accepted unless otherwise noted. (See the Household Hazardous Waste Section for information on how to dispose of these products and oil-based paint.) Commercial or contractor use of the program is prohibited. Most charge a fee based on quantity, so be sure to call first.

Thermal Receipts—not recyclable

These have a plastic component and do not pulp the same as other paper so they are not recyclable. Do not compost or burn either as this releases the chemical BPS (bisphenol A) in to our soil and air. Just decline the receipt if possible.

(Thanks to Kane County Green Guide for this information)

Did you know?

Paperback and hardback books can be recycled in your curbside recycling (in most areas, please always double check with your hauler). NO glossy or metallic book covers or book jackets.

Better yet, donate books to a resale store, the Green Read, or Green Spot used bookstores. Get 20% off your next purchase for donations to the Read or Spot!

Document Shredding Is Paper Recycling

The McHenry County Department of Health and Paper Tiger Document Solutions will be hosting six onsite document shredding events in 2022.

- | | |
|--|--|
|  April 9 - Milkyway Park-
Harvard |  August 20 - McHenry County
Health Department-Woodstock |
|  June 18 - Woodstock North
High School-Woodstock |  September 17 - Woodstock
North High School-Woodstock |
|  July 16 - Woodstock North
High School-Woodstock |  October 15 - McHenry
County Courthouse- Woodstock |

NO EVENT IN MAY

Events are Saturdays 9:00 am to Noon

Event may end earlier if the truck is full

Paper Tiger Document Solutions will have their shred truck onsite to securely shred your sensitive paper documents. Documents are shredded in the truck onsite at the event.

To help keep the event moving, please remember these important tips for quick shredding:

1. This is for paper only. No CD's or thumb drives.
2. Staples and paper clips are okay to leave.
3. Binder clips, three ring binders, hanging file folders and the like **Need To Be Removed** prior to the event. We will not have time to remove these items at the event.
4. Participants need to take back empty bags or boxes.

***There will be a 4 "banker box size" limit per vehicle.* This event is open to McHenry County Residents only. (No Businesses Please)**

The documents do not have to be in a banker box, but must not exceed a banker box dimensions (approximately 13" X 15" X 11").

Packages and pricing available online. Mail back kits with prepaid postage for:

- CFLs and florescent bulbs
- Batteries
- Electronics and Computers
- Bottles, Cans and paper
- Syringes and Lancets

WHAT DO I DO WITH THIS?

The Sustainability Center Director and student assistants are grateful for every phone call, email, or text we receive! Below are Recycling resources for some of the most common items we get questions about. We hope this is helpful!

Aerosols: Empty completely and recycle in your curbside container (EXCEPT paint—please see page 12 for details). Flat Can recycling will take any kind of aerosol cans—visit www.flatcanrecycling.com/drop-locations for a full list of drop-off sites.

CDs, DVDs, VHS tapes, cassettes, and cases: CDs and DVDs are collected at the township collection sites and the county drives. Unfortunately there are no local recycling programs for VHS tapes and cassettes, so they can go in the trash. Cardboard inserts or sleeves can be recycled in your curbside container.

Construction debris: Please visit or call Lowe Enterprises at www.loweenterprisesinc.com/recycling or call (847) 639-2775 for pricing and hours.

Carbon monoxide (CO) detectors: can be disposed of in the regular trash.

Cardboard boxes: If you are comfortable, offer them on social media! Otherwise, flatten and recycle in your curbside container.

Corks: Wine/Spirit Warehouse (\$5/bag), 830 S Milwaukee Ave., Libertyville, call to confirm (847) 549-6900. Free drop off at Prairieland Disposal, 21988 N. Pepper Rd., Lake Barrington, www.prairielanddisposal.com. Visit www.recork.com for other drop-off locations (none in McHenry County).

Gasoline: This is considered a household hazardous waste. Please see page 8.

Furniture: If reusable, donate to the Habitat for Humanity ReStores (listings on page 3) or Goodwill (listing on page 3). If beyond use, contact your hauler for bulk item pick up to be landfilled.

Mattresses: Verlo Mattress store (Crystal Lake, (815) 455-2570 and McHenry, (815) 578-8375) will take old mattresses if you purchase one from them. Otherwise, you can list on one of the online platforms (Craigslist, Freecycle, etc.) if it's reusable. If it is beyond reuse, contact your hauler for bulk item pickup to be landfilled. Also, see these online Mattress Disposal Guides from Myslumberyard.com, Sleep.org, Tuck.com, RestRightMattress.com and HealthySleepy.com.

Microwaves: These are considered electronics. Please see page 7.

Prescription medication: Most local police stations have a collection container but do not take any liquids. Please call your police station for drop-off hours and bin location.

WHAT DO I DO WITH THIS?

Propane gas tanks (small camp-sized): Go to manufacturers' website to find puncture-hole location and instructions. Once punctured, take to Behr Iron and Metal, 13914 Washington St., Woodstock. Another option is Flat Can Recycling drop offs—see www.flatcanrecycling.com

Propane gas tanks (30 gallon-sized tanks): Call the store you bought it from to see if they will take the tank back, or use one of the exchange services found at many home improvement stores. If the valve is removed, or it is damaged in such a way that you can see inside, take it to Behr Iron and Metal, 13914 Washington St., Woodstock.

- The Amerigas office in Palatine will take propane gas tanks in any condition (apparently there is nationwide shortage of tanks!). The only office open to the public is in Palatine, 522 S. Vermont St., Palatine, (847) 359-6450.
- Small, camp-sized propane cylinders and larger tanks, full or empty.
- Or visit www.flatcanrecycling.com/drop-locations for locations nearby.

Smoke detectors: These are not banned from the landfill, so they can be thrown in the regular trash. You can return used smoke alarms to the supplier—the address is usually listed in the product warranty or user's manual. You can use one of these mail-in programs: Curie Environmental Services (NM), (505) 888-9392; EZ on the Earth (IN), (855) 327-8455; or First Alert Corp (IL), (800) 323 9005.

Thermostats: Visit Thermostat Recycling Corporation (thermostat-recycle.org) and enter your zip code for the closest drop off locations for mercury thermostats (over 20 years old or more). There are many locations in McHenry County.

Sharps drop-off: Island Lake Police Department, 3720 Greenleaf Ave, Island Lake, or Wauconda Police Department, 311 S. Main St., Wauconda.

Textiles: Please see the Goodwill listing on page 3 or visit www.USagain.com to find one of the many collection boxes available around the county. Environmental Defenders of McHenry County will also collect textiles at the county recycling drives. See page 20 for details.

Tires: See page 10 for area collection options. There are fees for tire recycling.

Frozen food boxes—not recyclable

Paperboard boxes that were designed for freezer foods such as pizza and entrees contain a plastic polymer to protect it from freezer burn. This plastic prevents the box from breaking up in the recycling process. They are not recyclable or compostable.

(Thanks to Kane County Green Guide for this information)
