Re: McHenry County DOT -- Municipal Separate Storm Sewer System
Notice of Coverage Under General Permit - NPDES Permit No. ILR400264 -- McHenry County

Dear NPDES Permittee:

We have received your Notice of Intent and have determined that storm water discharges from your municipal separate storm sewer system are appropriately covered by the attached NPDES general permit issued by the Agency.

This permit as issued covers Notice of Intent requirements, storm water management plan requirements, and monitoring, recordkeeping and reporting requirements. Attached is an Annual Inspection form that you must complete and submit to the Agency by the first day of June for each year that this permit is in effect. You may also submit the Annual Inspection form electronically to epa.ms4annualinsp@illinois.gov.

Failure to meet any portion of the permit could result in civil and/or criminal penalties. The Agency is ready and willing to assist you in interpreting any of the conditions of the permit as they relate to your municipal separate storm sewer system.

Your municipal separate storm sewer system was automatically covered by this permit 30 days after your Notice of Intent application was received by the Agency pursuant to the General Storm Water Permit for MS4's, Part I.D.3. The Agency realizes that you may have implemented part of your program, however, we have reviewed your application for any deficiencies and applicability of the general permit versus an individual permit. The final determination is that the general permit is applicable to your system.

This letter shows your permit number below your name. Please reference this number in all future correspondence. Should you have any questions concerning the permit, please contact the Permit Section at 217/782-0610 or at the above address.

Very truly yours,

A handwritten signature in black ink that reads "Alan Keller".

Alan Keller, P.E.
Manager, Permit Section
