The certified payroll records must include for every worker employed on the public works project the name, address, telephone number, social security number, job classification, hourly wages paid in each pay period, number of hours worked each day, and starting and ending time of work each day. These certified payroll records are considered public records and public bodies must make these records available to the public under the Freedom of Information Act, with the exception of the employee's address, telephone number, and social security number. Any Vendor who fails to submit a certified payroll or knowingly files a false certified payroll is guilty of a Class B misdemeanor.

For violations that occur after January 1, 2006, the debarment period --during which Vendors are ineligible for public works contracts -increases from 2 years to 4 years if two notices of violation are issued/serious violations occur within a 5-year period. In addition, a new

The main facility houses the voicemail server, with remotes connecting to the main facility for calls out and for voicemail. Local POTs lines provide all incoming calls, and also outgoing in the event of a break in connectivity. Currently, the main facility has three bonded PRIs which will be switched over to ATT IP Flex lines during this project. We are currently using Modular Messaging for voicemail, and want to upgrade to Aura Messaging. Finally, our Avaya system runs in a physical environment, and we want to transition to a virtual VMWare environment. We own EC500 licensing for all system users, and must maintain that functionality. A detailed configuration will be provided thru Avaya upon request.

Modular Messaging - Our Modular Messaging 5.2.1 environment is licensed for 800 mailboxes, and uses Microsoft Exchange 2010 for the storage system. We want to upgrade to Avaya Aura Messaging R6. Task call monitoring software is being used to monitor our call and queue environment. We are licensed for 1 Supervisor License, and 20 Agent Licenses. We would like to continue using this product if possible. A new product may be specified with costs included.

Verasmart call accounting software is being used to account for all incoming and outgoing calls. Again, we would like to continue with this product, but feel free to suggest another with pricing included.

Proposed Environment

Describe in detail the proposed environment, with all parts identified with part numbers. Preference will be given to the solution with the most detail surrounding the proposed environment, and the project plan to migrate us. We are expecting training and knowledge transfer during all phases of the project including testing, staging, and install of equipment and software.

Support – Include in cost for 24x7x365 hardware, firmware, and software maintenance for 4, 5, and 6 years. We require four hour response within the agreement. And, specify what preventative maintenance, firmware and software upgrades included, and what are excluded.
