Meeting: 10/15/13 07:00 PM
Department: Transportation Committee
Category: General
Prepared By: Jeffrey Young

DOC ID: 2284

TO: McHenry County Board
FROM: Jeffrey Young
DATE: October 15, 2013
SUBJECT: Resolution Establishing a Nondedicated Subdivision Road Maintenance Program

Board / Committee Action Requested: At the request of property owners along Nondedicated Subdivision Roads located in Algonquin, Dorr, McHenry, and Nunda Townships, the Transportation Committee has directed the Division of Transportation and State's Attorney Office to investigate the use of Motor Fuel Tax Funds towards a road maintenance program.

Background and Discussion: In accordance with Illinois Law, Motor Fuel Tax Funds are permitted to be used towards the maintenance of Nondedicated Subdivision Roads provided a proportional match from the property owners is made per State Statute.

The Transportation Committee has vetted the draft policy during several Committee meetings since the fall of 2012 including a roundtable meeting with Township Highway Commissioners and representatives from effected subdivisions.

The proposed draft policy will need to be reviewed by the State's Attorney Office and the Illinois Department of Transportation before the Transportation Committee's approved policy can be brought forward to the County Board for consideration.

Impact on Human Resources: Depending on the success of the program, additional MCDOT staff may be required to administer the program.

Impact on Budget (Revenue, Expenses, Fringe Benefits): State Statute dictates that the Townships can contribute 50% of their Motor Fuel Tax Funds annually towards the maintenance of Nondedicated Subdivision Roads. Fifty percent (50%) of the Motor Fuel Tax Funds from the three townships of Algonquin, McHenry, and Nunda for 2012 is approximately \$208,000.

The proposed draft County policy states that the County's contribution to the maintenance would not exceed this amount. Therefore, the budget impact to the County's Motor Fuel Tax Fund would be \$208,000 annually. The actual amount is dictated by the 50% amount the Townships could contribute as well as the actual amount matched by the property owners of Nondedicated Subdivision Roads.

Impact on Capital Expenditures: none
